EVERGREENS
ORNAMENTAL TREES
and SHRUBS
SHADE TREES
VINES

It is impossible to list in this little Booklet all the items of interest our Nursery contains. All the stock listed herein is home-grown.

Special attention is invited to our large assortment of high-grade Evergreens.

VISIT OUR NURSERY

Plume Cypress in our Nursery

Evergreen Trees

E grow only the highest grades of stock, for use in fine Home Landscapes. We transplant frequently and trim all Evergreens vigorously, which makes for compact, dense growth. We do not raise our Evergreens in jigg-time.

All Evergreens are offered Balled and Burlapped. Our soil is such that they will always be delivered to you with solid balls of earth adhering to well developed systems of fine, fibrous roots.

American Arborvitae. Popular, tall growing, upright and of little width. Useful for tall "accents" in Foundation Plantings; also for hedges and windbreaks. Responds wonderfully well to clipping, as well as all the following varieties of Arborvitae.

2	-2½ ft., each \$3.00.	Ten-rate, \$2.75; 100-rate, \$2.50.
2½-3	ft., each \$3.50.	" " , \$3.25; 100-rate, \$3.00.
3	-3½ ft., each \$4.25.	" " , \$4.00; 100-rate, \$3.75.
3½-4	ft., each \$5.00.	" " , \$4.75; 100-rate, \$4.50.
4	-5 ft., each \$6.00.	" " , \$5.50.

An economical size for Hedges, at a considerable saving. Once transplanted:

12	-15 inches, B. & B. \$ 60.00 per 100.
15	-18 " B. & B. \$ 80.00 per 100.
1½-	2 ft., B. & B. \$100.00 per 100.

TOPNOTCH QUALITY AT REASONABLE PRICES

American Arborvitae

Pyramidal Arborvitae. A more compact, somewhat slower growing form. Its dwarfer habit and better winter color make it more desirable for Foundation Groupings, and for use as individual plants.

2	-2½ ft., \$3.25; Ten-rate, \$3.00.
2½-3	ft., \$4.00; " " , \$3.75; 100-rate, \$3.50.
3	-4 ft., \$5.50; " " , \$5.00.

Douglas Pyramidal Arborvitae. Moss Arborvitae. A striking, upright, formal, slow-growing form which stands apart from all other Arborvitae by its intensely deep green color and fine, fernlike branchlets. One of the most desirable and beautiful. 3 to 3½ ft., \$6.00; Ten-rate, \$5.50.

Douglas Golden Arborvitae. A vigorous, broadly pyramidal form with bright, orange-yellow foliage. 1½ to 2 ft., \$3.50.

Globe Arborvitae. Of the many globular forms of Arborvitae we recommend this type as the most dependable in these parts.

1 ft., \$2.25; Ten-rate, \$2.00.

Hovey Arborvitae. A compact, oval-shaped bush, good for accents in formal plantings or Foundation Groupings. Bright green. 12-15 inches, \$2.25; Ten-rate, \$2.00.

15-18 inches, \$2.50; " " , \$2.25.

Rosenthal Arborvitae. A very compact, slow growing pyramidal form, deep green.

1½-2 ft., \$3.25; Ten-rate, \$3.00.

2 -2½ ft., \$4.00; " " , \$3.75.

H e m l o c k

Canadian Hemlock. One of the most useful and beautiful trees in the landscape. Fine for individual Specimens in the naturalistic landscape. Sheared plants make fine lawn specimens and may be used in Foundation Groupings. An occasional shearing improves the appearance and keeps the plants dense.

Hemlock Hedges are unsurpassed for Beauty. For long Hedges we recommend our smaller transplanted sizes. They are beautiful stock. Three times transplanted.

2 -2½ ft., \$3.50; Ten-rate, \$3.25; 100-rate, \$3.00.

2½-3 ft., \$4.25; Ten-rate, \$4.00; 100-rate, \$3.75.

3 -3½ ft., \$5.50; Ten-rate, \$5.00.

Ten-rates are allowed on five or more plants of one listing. 100-rates on fifty or more plants of any one listing.

1000-rates, where stated, apply to 250 or more of any one listing.

Hemlock

BEAUTIFUL HEDGE SIZES:

Twice transplanted, Balled, Burlapped,

15-18 inches, \$.175; Ten-rate, \$1.50; 100-rate, \$1.25.

1000-rate, \$1.15.

Once transplanted, Balled and Burlapped,

15-18 inches, \$1.50; Ten-rate, \$1.25; 100-rate, \$1.00.

F i r s a n d S p r u c e s

Douglas Fir. By far the most satisfactory in these parts for free use in the landscape. Clean, stately growers, not subject to spruce gall.

2 -2½ ft., \$3.50; Ten-rate, \$3.25.

2½-3 ft., \$4.50; " " , \$4.25.

Norway Spruce. The common spruce. The brightest green in winter of all spruces and firs.

Three times transplanted, 2½-3 ft., \$3.00; Ten-rate, \$2.75; 100-rate, \$2.50.

3 -3½ ft., \$3.50; Ten-rate, \$3.25.

Colorado Spruce. An extremely hardy spruce for cold situations.

Plants vary from grayish green to blue. Prices below are for the ordinary run of plants. **Selected bluish plants at 50% extra.**

Twice transplanted, 1 ft., \$2.00; Ten-rate, \$1.75; 100-rate, \$1.50.

Three times transplanted, 1½-2 ft., \$4.00; Ten-rate, \$3.50.

" " " 2 -2½ ft., \$5.00.

Junipers—Tall, Narrow Forms

Chinese Column Juniper (*J. chinensis columnaris*).

One of the most important of recent introductions. Chinese Junipers are an extremely hardy race, able to withstand extreme cold. This narrow, spiry form fills a hitherto unfilled place in the Home Landscape. Its strong central stem, its stiff, straight leader will always grow up straight. The tree does not ever lean to one side and stands up wonderfully under snow.

Plants vary from bright green to grayish. They grow rapidly, from 10 inches to 1½ feet in a summer.

2½ ft., \$4.50. 3 ft., \$5.00. 3½ ft., \$6.00; 4 ft., \$7.50.

Juniperus scopulorum. Western Silver Cedar.

Similar in habit to the Redcedar. We offer selected, grafted plants of a steel-blue color. Typical of this species is the strong odor of the foliage when crushed.

4½-5 ft., \$7.50. 5-5½ ft., \$8.50.

Redcedar. Nursery-grown plants of this familiar native species.

2 ft., once transpl., B. & B., each, \$1.25; Ten-rate, \$1.00.

Blue Redcedar. This and the following varieties of Redcedar are grafted on Redcedar stock. They are superior to the native type and present a variety of color.

This blue form is quite silvery white in June and tones down to gray. A striking and choice form.

Three-times transplanted, 3 -3½ ft., \$5.00.

Four-times transplanted, 3½-4 ft., \$6.00.

4 -5 ft., \$7.50.

5 -6 ft., \$10.00.

Cannaert Redcedar. A very dark green form.

3½ to 5 ft., \$5.00 to \$8.00 each.

Ketelaer's Redcedar. A robust, fast growing, bright green

Chinese
Column
Juniper

variety, with the side branches growing upright.

3½ to 5 ft., \$5.00 to \$8.00 each.

Scott's Redcedar. A bright green form which contrasts prettily with the dark Cannaert foliage.

2½-3 ft., \$4.00; 3-3½ ft., \$5.00.

Junipers — Dwarf Forms

*Spiny Greek
Juniper*

Spiny Greek Juniper. A dwarf, compact cone of silvery gray foliage. Grows here about 4 ft. high. Very hardy and dependable. Fine for formal effects and for dwarf hedges. It endures in window boxes and tubs, better than any other Evergreen.

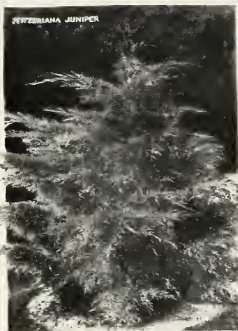

15-18 inches, \$2.50; Ten-rate, \$2.25; 100-rate, \$2.00.

Irish Juniper. A popular and effective column of gray-green foliage. It will grow about 7 ft. high hereabouts. Good for formal effects in open locations. Not so suitable for planting close to buildings. We recommend it more for its beauty than for its dependability.

3 ft., each \$3.50; Ten-rate, \$3.00.

Extra heavy, 3½ ft., each \$4.00; Ten-rate, \$3.75.

Pfitzer's Juniper. This is one of the most important and dependable and beautiful of all Evergreens for Home Landscapes. It makes broad, informal clumps with spreading branches and soft, feathery foliage. We offer beautiful plants at extremely reasonable prices.

Pfitzer's Juniper

2 -2½ ft. spread, \$4.00.

3 -3½ ft. " , \$6.00.

2½-3 ft. " \$5.00.

3½-4 ft. " \$7.00.

Sabin Juniper. Jun. sabina.

A pretty little spreading type with branches growing slantingly upward, often vase-shaped.

18-20", \$3.25 each.

Fishtail Juniper. Junip. squa-

mata Meyer. A lovely little twisted form, dwarf and slow-growing, for the Rock Garden.

Silvery white foliage in sum-

mer, assuming rich plum-colors in winter. New and scarce. 1 ft., \$4.50.

GOOD STOCK ALONE DOES NOT MAKE THE HOME
GROUNDS SMILE. IT TAKES GOOD DESIGN AND
GOOD PLANTSMANSHIP, TOO. FOR ALL THESE
THINGS, WRITE OR PHONE POUGHKEEPSIE 663.

Retinospora—Cypress

Hinoki Cypress. *Retinospora obtusa*. A most beautiful race of Cypress, distinguished by its lustrous, deep green foliage which does not discolor in winter. This and the following varieties are recommended for places of honor. They should have good soil and good care. They are slow growers, especially in their early stages. *Obtusa*, once established, will grow into a good-sized pyramid.

1½-2 ft., \$3.00.

Hinoki Cypress, var. *magnifica*. A scarce and beautiful form which eventually makes a large pyramid. Tends to make a loose growth. We offer beautiful plants.

3 ft., \$7.50.

Slender Hinoki Cypress. *Retinospora obtusa gracilis*. A slow growing pyramidal form with handsome, shiny, deep green foliage.

1½-2 ft., \$5.00; extra heavy, \$6.50.

Three Choice
Dwarf
Evergreens
for the
Rock Garden:

**Compact Hinoki
Cypress**

Page 6

**Dwarf Yellow
Plume Cypress**

Page 7

Fishtail Juniper

Page 5

Compact Hinoki Cypress

Compact Hinoki Cypress. A little gem. Very slow, dwarf and compact, of irregular, clumpy appearance, with intensely deep green, shiny foliage. For choice places.

12-15 inches, \$4.00. 15-18 inches, \$4.50.

Plume Cypress. Extremely useful Evergreens for Foundation Planting, which may be clipped into any desired form or be left to grow up with comparatively little shearing.

Broad, sheared plants, 2-2½', x 2½-3 ft., \$8.00.

Pyramidal, " " , 2-2½', \$5.00.

Golden Plume Cypress. A brightly colored form of the preceding. This colorful form is a great favorite for Foundation Grouping. One of the most dependable and hardy.

We offer **only heavy, sheared plants**, such as will stand up under heavy snowfalls. It takes many years of care to produce these compact specimens.

1½-2 ft., dense, close-cropped plants, \$4.25.

2 -2½ ft., " " " " \$5.50.

2½-3 ft., " " " " \$6.50.

Dwarf Yellow Plume Cypress. We have only an extremely dwarf type of these that make pretty plants for very dwarf hedges or as accents in Rock Gardens. These little mites have been with us for about twelve years and, without any shearing, they have developed into little globes, about 10-12 inches. Very choice and distinct.

\$4.00 each; Ten-rate, \$3.50; 100-rate, \$3.25.

Sawara Cypress. One of the handsomest of the larger forms of *Retinospora*. These plants, if left to grow, will make stately pyramids, up to 35 feet in these parts. In order to use them to advantage in Foundation Plantings, they should be trimmed once or twice a year.

Never buy stock of these that is quickly grown. Select stock grown on a single leader; stock that has been trimmed rigorously. Then the plants will stand up under snow. Loosely grown stock will usually succumb to damage by snow. Ours are grown slowly and solidly. It takes just twice as long to do that as it requires to raise loose, spindly plants.

2½-3 ft., \$4.50. 3-4 ft., \$6.00.

Golden Sawara Cypress. A brightly colored form of the preceding, much favored for bright effects in Foundation Groupings. We offer only compact, sheared pyramids.

2½-3 ft., \$5.00. 3-3½ ft., \$6.00. 3½-4 ft., \$7.00.

Thread Cypress. A deep green, broadly pyramidal tree with rounded top. Long, thread-like, drooping branches.

Heavy, solid plants, 2 to 2½ ft., \$5.00. 2½ to 3 ft., \$6.50. 3 ft., \$7.50.

Cryptomeria

***Cryptomeria japonica* Lobbi.** Japanese Temple Cedar. A strikingly beautiful, hardy Evergreen, unlike any more familiar Conifer. Fine for tall accents in Foundation Plantings, especially effective with the Spanish type of house. It suggests more than any hardy Evergreen an orientaleffect. Desirable and scarce.

2½ to 3 ft., \$ 7.50.

4 - 5 ft., \$12.00.

5 - 5½ ft., \$15.00.

VISIT OUR
ROCK GARDEN

Cryptomeria

P i n e s

Mugho Pine

Mugho Pine. A compact, clumpy mound of green, which does not grow up in height, but spreads slowly. It stands apart from all other Pines and may be used in Foundation Groupings like other dwarf types. Exceedingly hardy and dependable. Occasional shearing, in the

spring, when the new growth is developing, improves the plants. This is one of the most important of all dwarf Evergreens and useful for a variety of purposes.

12-15 inches width, \$3.25; dozen-rate, \$3.00, Hundred-rate \$2.75.

15-18 inches " \$4.25; dozen-rate, \$4.00.

Austrian Pine. A dark green, somewhat slow growing Pine for natural effects. Not for Foundation Planting.

1½-2 ft., \$2.50. 2-2½ ft., \$3.50.

Red Pine. *Pinus resinosa*. A tall growing Pine for larger groupings.

1½ to 2 ft., \$2.50; dozen-rate, \$2.25.

Japanese Red Pine. *Pinus densiflora*. A bright green Pine of rapid growth. Fine for sandy soils.

2 -2½ ft., \$3.00; dozen-rate, \$2.75.

2½-3 ft., \$3.50; " " \$3.25.

Y e w s (Taxus)

Upright Japanese Yew. *Taxus cuspidata*. Sturdy, beautiful plants, uniform type and color. One of the most desirable Evergreens for specimens, for use in Foundation Groupings and Hedges. These Japanese Yews may be planted in partly shaded places.

1½ ft., \$4.50. 2 to 2½ ft., \$6.50.

1½ to 2 ft., \$5.50. 2½ to 3 ft., \$8.00.

Spreading Japanese Yew. The same deep, persistent green as the preceding, but makes a broad clump instead of a pyramid.

1½ ft., \$4.00.

Dwarf Japanese Yew. *Taxus cuspidata nana*. Very slow growing, compact and deep green. Thick, heavy foliage. May be planted in sunny or shaded places.

1 ft., \$3.25; dozen-rate, \$3.00.

Canadian Yew. American Yew. *Taxus canadensis*.

A hardy, spreading Yew, exceedingly valuable as a ground-covering plant in shady, somewhat damp places. Makes beautiful single specimens as well. Should not be planted in hot, dry, sunny places.

12-15 inches spread, \$3.00;

dozen-rate, \$2.75. Hun-

dred-rate, \$2.25.

Canadian Yew

Hick's Yew. *Taxus media* Hicksi. This is one of the recent crosses between the Japanese and the English Yew. Entirely hardy, doing well in the Arnold Arboretum. This interesting yew shows a distinct upright, narrow habit of growth, reminding one of the beautiful, though not hardy Irish Yew. 10 to 12 inches, \$4.50.

The success of our business does not depend on mere sales of nursery stock, but on the degree of pleasure and satisfaction that is derived from our products.

Please remember that every assistance which may be required in the way of practical advice or design is at our customers' command.

Our advisory service costs nothing. Use it freely, along with our stock. Our skill in planting matters may save many an unnecessary expenditure and it may mean better effects.

Good stock alone does not spell landscape beauty. It takes good design and good plantsmanship as well.

For all these things, call Poughkeepsie 663.

Shade and Ornamental Trees

Norway Maple. 8 to 10 ft., 1½" caliper. \$4.00.

Swedler's Norway Maple. In all respects like the Norway Maple, except that the foliage comes out blood-red in the spring, toning down to deep green later in summer.
7 to 9 ft., \$3.25.

Red Japanese Maple. Grafted stock, Balled and Burlapped.
12 to 15 inches, \$6.50.

Lace-leaf Japanese Maple. A spreading, finely cut-leaved form which rarely grows over 4 feet high, but attains great spread. Choice and rare.

Balled and Burlapped, 10-15 inch spread, \$7.50.

American Elm. In all sizes, from \$3.00 to \$7.50.

Lombardy Poplar. 8-10 ft., \$1.00.

European Mountain Ash. A lovely tree for small lawns. Large clusters of scarlet berries in late summer.

9-11 ft., \$3.50; dozen-rate, \$3.25.

8-11 ft., extra heavy, each, \$4.50; dozen-rate, \$4.00.

extra heavy specimens, selected, \$5.00 to \$6.00.

Golden Willow. *Salix vitellina aurea*. A rapid-growing tree, for quick effects. Bright golden yellow, long twigs, very effective in the winter landscape. 6-8 ft., \$1.25.

Thurlow Weeping Willow. 8-10 ft., \$2.00.

Larch, European.

15-18 inches, once transplanted, 75¢; Ten-rate, 65¢.

Larch, Japanese Golden. *Larix Kaempferi aurea*.

Twice transplanted, 2-2½ ft., Balled and Burlapped, \$3.50.

FLOWERING AND ORNAMENTAL SHRUBS

It is impossible in a small space to list all the different kinds of Ornamental Shrubs our Nursery contains. We list here only some of the choicer and less common items.

Almond, Flowering. Amongst the prettiest of early spring blossoms. White, pink or Red, 3-4' \$1.00.

Barberry, Red-leaf Common. A lovely shrub with handsome, dull-red foliage, yellow flowers and long, yellowish red, drooping berries. 2 ft., 85¢. Ten-rate, 75¢.

Wilson's Barberry. A Chinese species, nearly evergreen, with attractive fruit. Slower of growth than the Japanese. Rare and desirable. 10-15 inches, \$1.00.

Berberis subcaulialata. A fine-leafed, pretty Barberry, not evergreen. Beautiful in fruit. Fine in the background of Rock Gardens or in Evergreen groupings. 12-15 inches, \$1.00.

Berberis dulcis (buxifolia). An excellent dwarf Barberry for small hedges or for planting through Evergreen groupings. Requires a sheltered place. 10-12 inches, \$1.00.

Berberis dulcis nana. (buxifolia nana). Box-leafed Barberry. A tiny Barberry that fits in well in the Rock Garden. Requires a sheltered place and some protection. 8-10 inches, \$1.00.

Cherry, Flowering Japanese.

Specimens, Balled and Burlapped, 4-5', \$5.00.

Lighter Grades, 3-4', \$3.00.

Crabs, Flowering. Lovely subjects as individuals or in groups in which some of the different varieties are contrasted.

Baechtel's Double. *Malus ioensis plena*. The loveliest of them all. A smaller, more compact shrub, with large, double, soft pink, very fragrant flowers, as lovely as Roses. Plant one near the house and enjoy the fragrance.

3-4 ft., Balled and Burlapped, \$3.50. Lighter grade, 3-4 ft., \$2.50.

Atrosanguinea. Single, camine blooms, followed by showy fruit.

3-4 ft, Balled and Burlapped, \$3.50.

Scheideckeri. Double, rose-colored blossoms.

4-5 ft., Balled and Burlapped, \$4.00.

Prunifolia Rinki. Chinese apple. Large, white blossoms, followed by attractive fruit. 4-5 ft., \$3.50.

Large Specimens of Flowering Crabapples

There is no glory in the Spring greater than that of the Flowering Crab Apples. No other trees are so completely covered with blossoms as they. Every lawn should boast one or more of these lovely, living spring boquets.

We offer, at an attractive price,—as long as they last, a limited number of these trees, in large, heavy, flowering sizes, in the following varieties:

Arnoldiana, *atropurpurea*, *Baechtel's Double*, *coronaria*, *floribunda*, *purpurea*.

6 to 7 ft., heavy specimens, \$4.00 each.

Cotoneaster. A charming race of shrubs, comprising tall growing and low, spreading kinds. All are attractive in leaf and bear pretty red fruit, for which they are highly prized.

C. applanata. (*C. Dielsiana*). Loosely branched, graceful shrubs of medium height. Pretty red fruit in the fall.
3-4 ft., Balled and Burlapped, \$2.00.

C. horizontalis. Low, spreading shrubs, rarely over 2 ft. high. Flat, feathery branches. Shiny, dark green, small leaves, thickly set with red berries in the fall. An excellent shrub for sunny, sandy spots. For slopes and for the larger Rock Gardens.

15-18 inches spread, \$1.50. Ten-rate, \$1.25.

15-18 " " grown in baskets or pots, \$2.25.

C. microphylla. A small and narrow leafed little shrub for similar purposes. White flowers and scarlet fruit.
10 inches, Balled and Burlapped, \$1.50.

C. Simonsi. Deep green, lustrous foliage, like glorified Privet leaves. An upright shrub, with showy red fruit in autumn. May be used in partly shaded places. It makes also an elegant hedge material.

2½-3 ft., \$1.50. Lighter grade, 1-1½ ft., 90¢.

Clethra alnifolia. Sweet Pepper Bush. A native shrub, fine for shady places or undergrowth. Delightfully fragrant, white flower spikes in mid-summer. 1½-2 ft., 85¢.

Dogwood, White flowering. *Cornus floridus*.

3-4 ft., \$1.50.

Dogwood, Pink flowering. 2-3 ft., \$3.50. 3-4 ft., \$5.00.

Elder, Golden. A vigorous, brightly colored shrub for an accent in the larger Border.

3-4 ft., 85¢. Ten-rate, 80¢.

Euonymus alatus. Winged Euonymus. Burning Bush. A handsome foliage shrub which assumes brilliant red autumn colors. Bright red fruit in the fall. The branches have queer, corky ridges.

2-3 ft., \$1.00. Ten-rate, 90¢.

Forsythia intermedia spectabilis. The best and most showy of the Golden Bells.

3-4 ft., 85¢. Ten-rate, 80¢.

Hydrangea paniculata. The old-fashioned Hydrangea, bearing pyramidal clusters, upright on the branches, as contrasted with the drooping habit of the larger flowering type. 2-3 ft., 75¢

Hydrangea pan. grandiflora. The familiar large clustered, late-flowering Hydrangea.
4 yrs. 3-4', \$1.00.

Hydrangea arborescens alba gr.fl. Hills of Snow. The summer-flowering Hydrangea with pure white, rounded heads of flowers.

2-3', 85¢

*Euonymus
alatus*

SEND FOR OUR BOOKLET OF
GARDEN PERENNIALS AND ROCK PLANTS

Lilac.

Persian. A graceful shrub with small panicles of lavender pink flowers at the ends of drooping branches.

3-4 ft., \$1.25.

Common White and Common Purple. 2-3 ft., 85¢; Ten-rate, 80¢.

Choice Hybrids.

Congo, single, wine red.

Souvenir de Ludwig Spaeth, single, red-dish-purple. } 1½-2 ft., \$1.00

Chas. X. single, purple

Marie Legraye single, white

Mme. Lemoine double, white } 2-3 ft., \$1.10.

Lamartine single, rosy mauve

President Grevy, double, blue

Belle de Nancy, double, satiny rose, tree-form, 2-3 ft., \$1.25.

Mahonia aquifolia. Oregon grape. A charming, compact shrub, up to 4 ft. high, with shiny, leathery, Holly-like leaves in every shade from bright green to deep bronze and maroon. In absolute shade and sheltered places the foliage remains in good condition throughout the winter. In open locations it tends to become sunburnt sometime after January. The leaves make an unequalled Christmas decoration.

12-15 inches, compact clumps, Balled and Burlapped, \$1.75;

Ten-rate, \$1.50. 100-rate, \$1.25.

12-15 inches **not** Balled and Burlapped, \$1.10; Ten-rate, \$1.00; 100-rate, 90¢.

*Mahonia
aquifolia*

*Oregon
Grape
Holly*

Mock Orange, Virginal. A lovely new variety with large, double, fragrant flowers, of medium height. Very choice.

2-3 ft., \$1.00.

Plum, Flowering. *Prunus triloba*. These are amongst the loveliest of early flowering things. Every specimen is a veritable bouquet.

Tree-form, 4 ft., Balled and Burlapped, \$3.50.

Bush-form, \$2.50.

Plum, Red-leaf. *Prunus Pissardi*. An erect-growing little tree with foliage which comes out bronze-tinted in spring and becomes blood-red as summer wears on. Pretty, lavender pink, single blossoms in the spring.

Extra heavy, 5-6 ft., Balled and Burlapped, \$5.00.

Standards, 4-5 ft., Balled and Burlapped, \$3.50.

Rosa rugosa hybrid, F. J. Grotendorst. A great acquisition to the assortment of shrubby Roses. A sturdy bush, bearing clusters of deep pink flowers of the "Rambler" type.

2-yrs. old, extra strong, \$1.00.

Rosa Hugonis. The now famous and truly lovely single, yellow Chinese Shrub Rose. Best in sunny places. Should be used as a flowering shrub, not as a bedding Rose.

2 yrs., extra strong, \$1.00.

Spiraea sorbifolia. A sturdy, broad and imposing shrub with foliage like that of the Mountain Ash. It bears large, loose panicles of white flowers atop the foliage. Fine for either partly or heavily shaded places. 2-3 ft., \$1.00.

Smoke Tree. *Rhus cotinus*. Purple Fringe. A broad and stately shrub with bluish-green foliage. Topped with large, cloud-like, cream-colored flower heads. 2-3 ft., \$1.25.

Sumac, Staghorn. *Rhus typhina lacineata*. A handsome vigorous shrub with finely cut foliage which assumes brilliant autumn colors. For the larger shrub borders. 3-4 ft., \$1.00.

Symphoricarpos Chenaulti. A pretty shrub which is now used instead of the Indian Currant (*S. vulgaris*). Its foliage is truly attractive and the red berries very pretty. Good for either sunny or shaded places. 2-3 ft., \$1.00.

Snowberry. *Symphoricarpos racemosus*. The familiar white-berried shrub. 3-4 ft., 75¢.

Sorbaria Aitchisoni. A tall shrub of vigorous growth, stems rather erect. Large, pinnate foliage, resembling that of Mountain Ash. Large panicles of white flowers at the ends of the branches. A most impressive and beautiful shrub, especially good for moist locations. The bright green foliage contrasts well with the red stems. 2-3 ft., \$1.00.

Sorbaria arborea. A similar, but more spreading form, equally beautiful and effective. 2-3 ft., \$1.00.

Snowball. *Viburnum*.

***Viburnum opulus sterile*.** Gelder Rose. An old favorite with globular white flower heads and green foliage. The flowers change from greenish white to pure white. 3-4 ft., \$1.25.

***Viburnum americanus*.** Similar to the European High bush Cranberry (*Vib. opulus*), bearing large clusters of red berries, but preferred to it because it is less subject to scale. 3-4 ft., \$1.25.

***Viburnum tomentosum*.** Double-file Snowball. An old-fashioned, handsome *Viburnum* with large, pure white, flat flowerheads which practically cover the shrub in June. 2-3 ft., \$1.00.

***Viburnum tomentosum plicatum*.** Japanese Snowball. Handsome, bronze-green foliage with pure white, globular flowerheads. Choice and most attractive. 3-3½ ft., \$1.25.

(See illustration, top of next page)

Vines and Climbers

Ampelopsis Veitchi. Boston Ivy. 3 yrs. old, 75¢; dozen-rate, 70¢.

Clematis paniculata. The popular small-flowering, white and fragrant Clematis. 3 yrs. old, extra heavy, 65¢; dozen-rate, 60¢.

Clematis Jackmanni. Large, deep purple, showy flowers. For sunny places. 2 yrs. old, \$1.00.

Dutchman's Pipe. A robust Vine with very large, heart-shaped leaves. It creates a solid screen of foliage for porches. 3 to 4 ft., 3 yrs. old, \$1.00; dozen-rate, 90¢.

Euonymus radicans. Wintercreeper. 3 yrs. old, 90¢; dozen-rate, 80¢.

Euonymus radicans vegetus. Large-leaf Wintercreeper. 3 yrs. old, 90¢; dozen-rate, 80¢.

Euonymus radicans variegata. Silver-leaf Wintercreeper. 3 yrs. old, 90¢; dozen-rate, 80¢.

Euonymus radicans kewensis. Small-leaf Wintercreeper. 3 yrs. old, \$1.00; dozen-rate, 90¢.

Honeysuckle, Hall's Japanese. 2 yrs. old, 50¢; dozen-rate, 40¢.

Honeysuckle, Scarlet Trumpet. This native Honeysuckle retains its foliage sometimes almost throughout the winter. Long, tubular, scarlet or orange-scarlet flowers. 2 yrs. old, 50¢; dozen-rate, 40¢.

Honeysuckle, Japanese gold-spotted. A brightly colored Vine, particularly suited for covering sunny slopes. The small leaves are handsomely marked with yellow. 4 yrs. old, 90¢; dozen-rate, 80¢; hundred-rate, 75¢.

Kudzu Vine. A Japanese Vine which here usually dies down to the ground, but makes a most vigorous growth above ground each summer. The leaves are dull-green and oddly and variously lobed. It covers porches or arbors with a dense growth. 2 yrs. old, \$1.00; dozen-rate, 90¢.

Lace Vine. Polygonum Auberti. A fast-growing Vine with light green foliage, producing in late summer an abundance of graceful, loose clusters of pure white, small flowers. One of the best and most deserving Vines for general use. 2 yrs. old, \$1.00; dozen-rate, 90¢.

Wistaria sinensis. Chinese Wistaria. Grafted plants. 2 to 3 ft., \$1.00.

Wistaria floribunda multijuga. Blooms about two weeks later than the Chinese and has much longer racemes of purple fragrant flowers. A most desirable variety of Japanese Wistaria. 3 to 4 ft., \$1.00.

WE OFFER BEAUTIFUL STOCK OF
EUROPEAN MOUNTAIN ASH

Prices quoted in this booklet are f.o.b. our Nursery. Deliveries to points within five miles from our Nursery will be made promptly and free of charge. Outside of this radius delivery will be charged at cost.

Packing will be charged at cost. Every care will be exercised to pack properly, but our responsibility for shipments ends when they have been delivered to the carrying Companies.

Please report possible errors directly upon receipt of goods.

We guarantee to furnish high-grade, healthy stock, true to label. We cannot, however, undertake to replace without charge any stock which fails to thrive. The protection we offer in the form of an expert, free advisory service helps to prevent disappointments and unnecessary expense.

It should be understood that in the case of errors on our part we shall not be held liable beyond the original price of stock furnished erroneously.

ORDERS WILL BE FILLED ONLY WITH THE UNDERSTANDING THAT THE ABOVE CONDITIONS ARE ACCEPTED BY THE PURCHASER

Rock Garden Enthusiasts are invited to make their selection of choice and rare items at our Nursery from one of the largest commercial collections of Rock Plants in the United States. We grow hundreds of interesting and beautiful species, many of them not obtainable commercially elsewhere. Most of them are being grown in small quantities only, for the convenience of fanciers.

Our Booklet of Rock Plants and Garden Perennials will be mailed upon request. It contains only a selection of certain of our plants. There is nothing like a visit to the Nursery, where hundreds of additional species will be seen growing.

We are prepared to handle the building and planting of large or small Rock Gardens. For consultation in this matter, please arrange an appointment either at the Nursery or on your own grounds.
